

## Experience

### SOFTWARE ENGINEER | MEDPACE | JUNE 2023 – PRESENT

- Spearheaded full-stack web application development using Angular.js, TypeScript, C#, .NET, Entity Framework, Cosmos DB, and LINQ Queries, improving efficiency and scalability.
- Developed and optimized SQL queries to retrieve data, ensuring accuracy and performance.
- Designed and implemented scalable table structures for web pages, considering future functionality needs.
- Led the development of full-page layouts, including wireframe design, frontend implementation, API integration, and backend-for-frontend solutions.
- Collaborated with business owners to gather requirements and ensure alignment with user needs.
- Led database schema design for web pages, ensuring data integrity and application performance.
- Improved user experience by implementing expandable panels for page layouts.
- Assisted team members with LINQ query optimization, maintaining quality and timely delivery.
- Developed and maintained microservices for handling bulk data updates, streamlining processes and ensuring system efficiency.
- Conducted code reviews and collaborated with cross-functional teams to ensure the delivery of high-quality, scalable solutions.

### SOFTWARE ENGINEER INTERN | MEDPACE | SEPTEMBER 2022 – JUNE 2023

- Developed features for internal projects using Angular, C#, .NET, and MSSQL Server, adhering to acceptance criteria and UI/UX designs.
- Participated in code reviews, testing, and validation processes to ensure software quality.
- Contributed to frontend and backend development, integrating web APIs with user interfaces.

### EMERSON | SOFTWARE ENGINEER INTERN | AUGUST 2021 – JULY 2022

- Enhanced Vue.js-based web platform, implementing new features and optimizing existing components.
- Designed and developed reusable Vue.js components for use across different pages of the platform.
- Converted Razor pages to responsive Vue.js pages, ensuring compatibility across desktops, tablets, and mobile devices.
- Applied Agile methodologies to deliver high-quality solutions and meet sprint goals.

## Education

### B.S. IN INFORMATION TECHNOLOGY | JUNE 2023 | UNIVERSITY OF CINCINNATI, CINCINNATI, OH

## Skills & Abilities

- **Programming Languages:** C#, TypeScript, JavaScript, SQL, HTML, CSS
- **Web Technologies:** Angular.js, Vue.js, REST API
- **Database Technologies:** Cosmos DB, SQL Server, Entity Framework, LINQ
- **Cloud Technologies:** Microsoft Azure Certified (AZ-900, DP-900)
- **Tools & Frameworks:** Git, Webpack, Azure DevOps
- **Other:** Agile Development, Code Reviews, LINQ Optimization, UI/UX Collaboration
